MANY BRIGHT IDEAS

Advanced by the Teachers at the Onio County Institute.

TO-DAY THEY GATHER AT THE PARK

And have their Sessions amid the Broczes that Temper the Sultry Air there-The Topic of Language Lessoms and Grammar Uppermost in Yesterday's Discussions-Tife Institute Growing in Attendance and

Another beautiful but very warm day-warm enough to almost melt all the enthusiasm that could be in a common mortal; but the institute opened promptly on time, with an increased attendance and with the enthusiasm at boiling point. The warm weather does not drive the conscientious teacher from the line of duty, and hence when po'clock came the room was packed and all were ready for business,
"We Praise Thee, O God," was sung.

The devotional exercises were conducted by Prot. Crago, he reading a portion of Scripture and all repeating the Lord's Prayer. After singing the Lord's Prayer. After singing "America" and roll call the subject of reading was presented by Prof. Houck. This is the most important subject in the school room. Nothing is more enjoyable than to hear young people read well. He would not teach the old alphabetic method, though good readers have been made by this method alone; would not use the word method alone, but would teach the word first, then how to spell the word, and in this way would teach the letter. To use the word method exclusively makes poor spellers.

word method exclusively makes poor speilers.
Concert reading overcomes the timidity of the timid ones. A common mistaks in our schools is to have pupils reading in books for which they are not prepared. Children are in the third reader that should be in the second. A great deal of tact is necessary just how to criticise. Too much indiscreet criticism ruins the pupil. The most common mistake made in the teaching of reading is to require the pupils to read before they can call the words at sight.

The professor spode for an hour, and was listened to throughout with the

strictest attention.

Miss Mollie Miller gave a short talk
on primary language lessons. She
would have as much variety as possible,

would have as much variety as possible, writing or words and stories.

Miss Ada Brown spoke very entertainingly on the same subject, as did also Miss Minnie Wallace.

After recess and singing several good selections, Miss Meta White read ashort, spicy paper on the subject of grammar, confining herself to the infinitive in its different constructions. The paper was well written, well read and well received.

Miss Sarah Brown read a paper on the subject of grammar, confining her remarks more particularly to language lessons. The points made were that it is better to teach language rather than

better to teach language rather than grammar.

Miss Jennie J. Harvey followed, urging that the study of grammar should not be commenced too early in the school lite of the child.

Mr. A. W. Curtis does not think that grammar as a study should be taught in our public schools. Language lessons should be taught from the first. Miss Wilma Jacobs said every lesson should be a language lesson.

Miss Emma Stephens, toacher of the Clay grammar school, Wheeling, was called on and gave an interesting talk on teaching grammar in connection with the reading lesson. Prof. Crags gave a breathing exercise, the entire institute taking part. He also gave his plan of teaching the vocal sounds.

Afternoon.

AFTERNOON.

l'romptly at 1:15, after singing and roll call, the subject of history was introduced by J. Frank Foreman. He would use the conversational method—teach history as a story. Miss Clara Carter would locate the places—i. a. teach geography and history together. Miss Edna Griffith would teach the elements of history orally. Bogin with the history of your own town or neighborhood—use biographies as a basis, while a content was of the

borhood—use biographies as a basis, taking up the prominent men of the country, what they did, etc. Teach geography at the same time.

Miss Minnie Atkinson would follow the same plan as that presented by Miss Griffith. Miss Millle Foreman would begin teaching without the book.

Miss Emma Timmins had a spicy paper on history. The child naturally loves a story. Important events can be firmly fixed on the mind of the child by presenting them in the form of stories.

Prof. Hauck followed in a general troi. Hauck followed in a general talk. He spoke first of how hard it is for young teachers to take public part in the exercises of the institute. It is because they begin too late in life. Our pupils should be taught it in their

Our pupils should be taught it in their school life. He also spoke of mistakes made in teaching history, foolish questions asked and answered, etc.

The subject was further discussed by Prof. Crago, who urged that one of the greatest objects of teaching history is to cause the pupils to be intelligent students of history after they leave school. Teach the pupils how to study, and you have done more than is generally done in the teaching of history.

Before recess a vote was taken and it

and you have done more than is generally done in the teaching of history.

Before recess a vote was taken and it was unanimously decided to hold the meetings of the institute to-day at the Wheeling Park, Mr. Anton Reymann having offered the institute the use of the motors and also the park in which to hold its sessions. This will be a great relief to the teachers, as the room is now too small to accommodate the teachers, let alone the visitors who are anxions to come. There will be plenty of room at the park, and many visitors will no doubt avail themselves of the opportunity to attend.

J. W. Farmer took up the subject of writing, and gave a very fine exposition of the subject, showing himself master of the situation.

A short time was spent in the discussion of queries, and was participated in by Processors Handy. Mitchell and

cussion of queries, and was participated in by Professors Hauck, Mitchell and Crago and quite a number of the teach-

The enrollment yesterday reached 82. The interest was greater than on any pravious day. All in attendance say it is one of the best institutes ever held in the county.

"Be sure you get Ayer's" is an important caution to all in search of a thoroughly reliable blood purifier, Ayer's Sarsaparilla being the one on which there can be no manner of doubt. It has stood the test of nearly half a century, and has long been considered the standard. sidered the standard.

Bosron Brown Bread at the Retail Department of the Wheeling Bakery to-day at popular prices.

THE BUTCHER'S DAY.

Pine Programme for their Parade and Picnic August 3.

Everybody has his day, so do the butchers. The Wheeling butchers are going to have theirs on Thursday, August 3, and if the weather permits it will be one of the biggest days that they ever had. In the morning of that day ever had. In the morning of that day all union meat shops will close promptiat 8 o'clock, and in a short time after that every butcher in the city and vicinity will be in line on Eighteenth street, waiting for the command to march, from the chief marshai, John Dknkle. The parade will be headed by the Opera House band and Meister's band will nead the journeymen and young butchers. The parade will go over the following route:

Form on Eighteenth street, right rest-ing on Wood, north on Wood to Six-teenth, Sixteenth to Chapline, Chapline to Fourteenth, Fourteenth to Main, on Main to Twenty-fourth, on Twenty-fourth to Market, on Market to Twe Main to Twenty-fourth, on Twenty-seventh, on Twenty-seventh to Chapline, on Chapline to Thirty-third, on Thirty-third to Eoff, on Eoff to Thirty-ninth, on Thirty-third to Eoff, on Eoff to Twenty-seventh, on Twenty-seventh to Twenty-seventh, on Twenty-seventh to Chapline, on Chapline to Twentieth, on Twentieth to Market, on Market to Seventh, on Seventh to Main, on Main to new steel bridge, across to the Island, north on Penn to Zane, on Zane to Huron, on Huron to Virginia, on Virginia to Penn, to the fair grounds. Arriving at the fair grounds they will begin to any tertain their guests, first by giving away five nicely roasted beeves, which as usual will be begun the evaning before so that everything will be in readiness when they arrive. That will last about three hours. After the barbacue is over

THE HORSE RACES will begin. The first race on the programme is the butchers' trotting and pacing race, none to enter only those horses that are in active use at present by the butchers. There are several entries in this race, and the interest in it is growing greater as the day arrives. Some of the boys are very confident of winning. Then comes a half mile running race, free for all. An exciting contest is looked for when this comes off. After this comes the race between John McGannon's horse and E. C. McClelland. The horse is to run half a mile while McClelland runs 470 yards. Friends of both sides claim the other "ain't in it." They are to run for a stake, and the Butchers' Association is to give to the winner \$50. The excitement over this race is getting greater all the time. Following comes the bicycle races, forhandsome medals, which can be seen at the pacing race, none to enter only those race is getting greater all the time. Following comes the bicycle races, for handsome medals, which can no seen at the "Hub." One of these is a two-mile race and the other a half-mile dash. Mr. Chas. Goetze, the pharmacist, has the bicycle races in charge. Next comes the lamb killing contest for boys under 18 years of age. Look out for fun when this comes off. The calf killing contest will be the next and biggest event on the programme. In this contest some of last year's contestants will be seen, and also some new ones, and as they are required to dress the calves wearing white suits, some very handsome work may be looked for this year. After this is over the other fun begins, such as foot races, jumping, swinging, etc. The ladies will have charge of the cating stands, and will insure the public that no one need to leave the butcher picnic hungry or thirsty, the stands will be abundantly supplied with eatables and beverages. There will be music in all corners and lots of dancing. No gambling devices allowed on the grounds.

WHEELING MARKSMEN

WHEELING MARKSMEN

Make Good Scores at the Steubenville

Wheeling shots did first class work at the shoot of the Rival Gun Club at Steubenville on Tuesday. There were present from Wheeling, Penn ("Greenpresent from Wheeling, Penn ("Greener") Lemmon, Burt and Myers ("Scott"). They shot as follows: No. 1, 10 birds, \$1 25 entrance—Greener 7, Lemmon 8, Burt 10; No. 2, 15 birds, entrance \$1 60-Burt 14, Lemmon 11, Greener 12; No. 3, 16 birds, entrance \$1 85—Burt 14, Lemmon 12, Greener 11; No. 4, 15 birds, \$1 85 entrance—Burt 13, Greener 8, Lemmon 15; No. 5, 15 birds, \$1 60 entrance—Lemmon 10, Burt 11, Greener 14; No. 6, 10 birds, \$1 entrance—Greener 10, Burt 6, Lemmon 9, Scott 9; No. 7, 5 singles and 3 pairs, \$1 50 entrance—Greener 13, Scott 15, Burt 15, Lemmon 16; No. 9, 15 birds, \$2 50 entrance—Greener 13, Scott 15, Burt 15, Lemmon 16; No. 9, 15 birds, \$50 entrance—Scott 12, Lemmon 13, Greener 12, Burt 8; No. 10, 15 birds, \$50 entrance—Scott 11, Burt 11, Greener 9, Lemmon 12; No. 11, 15 birds, \$50 entrance—Scott 13, Lemmon 11, Burt 10, Greener 13; No. 12, 15 birds, entrance \$1 50—Scott 13. er") Lemmon, Burt and Myers

The Stone Cutters' Reply.

To the Editor of the Intelligen Sin:-In reply to Halock Bros, assortion through your paper, we would state that it would be hard to place a line of demarcation between the time when Halock Bros, were scab contractors and the time when they began toldo legitimate work with capable workmen. It may have been a year ago; some people think the time has not come yet. The statement that he explained

jet may have been a year ago; some people think the time has not come yet. The statement that he explained the water works muddle satisfactorily is correct only so far as that falcock Bros. were satisfied. The stone cutters were not satisfied—but let it pass. There has not been a first-class piece of carving done in Wheeling but was done by union men. The Stifel block was granite with which we have nothing to do. The others mentioned were sawed stone and done by union men. They try to beg the question by shifting the responsibility of the strike to the shoulders of the Austrians, the aim no doubt being to create hard feelings between his men and the society that he might easily persuade them to go to work again. Hallock Bros. have thrown down the gauntlet; we will take it up. They tried to get Wheeling men to do their carving on the job in question and it could easily have been arranged but none of them cared to work for them unless they were obliged to by Hallock Bros. giving us six days' notice to apply them with men which is our agreement with the bosses' association. Look at his pet job but take our advice, don't go too near; distance lends enchantment, but if you are curious examine it closely and note the miters and corners and the mechanical ability evinced in the work done with the chisel; then look at the retaining wall between Main and Market streets with the batter on the wrong way. The Austrians are members of our branch and we regard and treat them as the batter on the wrong way. The Austrians are members of our branch and we regard and treat them as brethren.

Wheeling Branch Store Cutters.

Wheeling, July 20.

Way do you buy a poor article when you can get the best in the market for the same money? The Wheeling Bakery's Bread is not only far superior to all others, but you get one-half more for the same money. Please notice that their seal is on each loaf you buy.

BELLAIRE.

All Sorts of Local News and Gossip from the Glass City.

the Glass City.

The city council the other night voted \$50 to the sporting hose teams to belp defray their expenses in attending a tournament at Marietta. The amount is not large, but it strikes the fire department in a tender place, since the purchase of needed supplies for the useful companies has been delayed because there was no money, and a number of the active firemen are criticising the action. the action.

The Democrats are having a lively hustle for the delegates from this city to their county convention. The contest is for the prosecuting attorneyship between A. W. Kennon and W. V. Campbell. Kennon has the best of it now, but Campbell has some sly and adroit workers backing him.

W. S. McCalleyth and the representa-

W. S. McCollough and the representatives of the city council could not agree yesterday as to the dedication of a parcel of ground for widening a street along which he desired to run a switch to the brick works, and the matter was dropped for the present.

It was rumored here yesterday that Tillie Cutshaw, the girl who gained prominence by her arrest in connection with the mysterious death of Neal McCabe, had committed euicide at Cambridge, but a telegram from there said there was nothing in it.

The project of having a street fair here this fall has been abandoned. There is a small fund on hand to begin with, but those most interested in the matter have concluded this is not a matter have concluded this is not a good time to push it to a successful con-

summation.

James F. Anderson is publishing a sories of interesting letters on the World's Fair in his paper, the Independent. He is a close observer and a caustic writer upon things that are not according to Hoyle.

Ben Myer, a saloon keeper in the First ward, has suspended business until times improve. He is not broke up but owns his own property. He simply quite rather than trust too much.

The stock of liquor and other apparatus in Harry Beall's saloon will be sold by the constable to-day to satisfy claims. It won't pay 25 cents on the dollar of indebtedness. Judge Driggs sat as a court at Woods-field one day this week to hear motions and has been spending the balance of the time hunting and fishing with old neighbors.

neighbors. A gas leak on Gravel hill has been giving the people on Jefferson street some annoyance. They fear an explosion, as at times some of the cellars are filled.

City Contractor Francis Crawford will begin on Monday next to lay pave-ments for people who have not repaired their sidawalks or put down new ones.

Fred Ripley, formerly with Tappan & Connell, has bought the photograph gallery of J. B. Neff, of this city.

The Dr. Kurtz property on Gravel hill, a double frame, was sold yesterday to Mrs. C. T. Elliott for \$3,000. The family of John Kirkpatrick are summering at Burr's Mills.

Miss Tillio Jahnke left yesterday to visit East Liverpool friends. Abe Stahl left last night for the west.

MARTIN'S FERRY.

Haps and Mishaps in the Thriving City Across the River. It was plainly demonstrated yesterday It was plainly demonstrated yesterday that the people will not patronize special excursion trains to Chicago or a ten day limit and not good in sleepers or chair cars. The C. & P ran a special train, leaving at 7 a. m., and not one passenger was seen in any of the coaches when it passed through Martin's Ferry, the third slop.

Yesterday, Lizzle, the wife of Jacob Darko, an employe at the blast furnace, caused the arrest of John Bareskia, another employe at the same furnace, charging him with alander. John deposited \$5 as security last night and was released.

released.

Last evening Mr. Thomas Springer, an employe in the Ætna-Standard mills, was married to Miss Lou Fowler at the home of the bride, in Neuland's addition, by Rev. Dr. Butts, of the M. E. church.

Mr. and Mrs. William Joy entertained a large party of friends at their residence on Broadway on Tuesday evening in honor of Mr. Joy's fortyfourth birthday.

Children Cry for Pitcher's Castoria.

Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order-the breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remody that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

I have tested its virtues personally, and know that for Dyspopsis, Bilicusness and Throbbing Hendacine, it is the best medicate the world ever saw. Have tried forty other, remedies before Simmons Liver Regulator, and none of them gave more than temporary relief, but the Regulator not only relieved but curved.
